Syllabus 2023-2024

Year 10 - 11

Budapest British International Academy
Syllabus 2023 - 2024

Subject:	IGCSE Curriculum (Pearson)	Year:	10 - 11
Course purpose and aim:	<p>Pearson Edexcel International GCSE (9–1) qualifications are comparable to the UK GCSE, with appropriate international content and assessment that will enable successful progression for learners.</p> <p>Pearson Edexcel International GCSEs are studied in over 80 countries worldwide and in independent schools in the UK. Available in 37 subjects, they are equivalent, grade for grade, to UK GCSEs and accepted by universities globally. Aimed at learners aged 14 to 16, they provide the skills and knowledge needed to progress to A Levels, International A Levels, onto university and into employment. Find out more about university progression with International GCSEs.</p> <p>These qualifications have been designed in collaboration with subject experts, teachers and university professors, to ensure that the content and assessment methods are appropriate and will enable successful progression for learners.</p> <p>Pearson Edexcel International GCSEs use the 9–1 grading scale which is also used for the Ofqual regulated GCSEs. The new scale was introduced by the UK government to raise standards and recognise outstanding performance. It improves differentiation between learners with a nine (9–1), rather than an eight (A*–G), point grading scale. This means that students are ideally placed to make progress to International A-Levels (IAL) and to universities worldwide.</p> <p>The design of our qualifications has been approved by a panel of World Class Qualification experts, a panel unique to Pearson Edexcel, who have ensured that our qualifications represent international best practice. We have also embedded transferable skills support throughout our qualifications, providing students with the opportunity to gain a wider set of skills through our academic curriculum, important for successful progression to A Levels, university study and employment.</p>
